SKILL EXCHANGE PLATFORM

Teach what you know.
Learn what you need.

Abdulaziz

Deema

Danah

THE PROBLEM

EVERYONE KNOWS SOMETHING. FEW CAN LEARN WHAT THEY NEED.

01

Learning is expensive

Courses and private tutors cost money many people can't spend.

02

Skills sit unused

People and companies hold valuable knowledge with no easy way to share it.

03

Timing never matches

A direct swap fails when two people don't need each other at the same time.

04

No way to trust

You can't tell if someone can really teach the skill they claim.

A REAL SCENARIO

SARA NEEDS A SKILL TODAY

Sara

A Java developer. She needs UI design for her project this week, and can't afford a course.

Khalid

A designer who could teach her. But he doesn't need Java, and he's only free next week.

The gap

No direct swap, no budget, and no proof of who is really good. Sara gives up.

With us: Sara teaches Java to someone else, earns tokens, and spends them to learn UI from Khalid **today**, by adding an urgent bonus.

THE IDEA

KNOWLEDGE BECOMES CURRENCY

3

Free tokens for every new account

+

Teach a session, earn tokens

-

Learn from anyone, spend tokens

+5

Bonus tokens after every 5 completed teachings

10

Buy or redeem tokens: 1 token = 10 SAR

HOW THE SYSTEM WORKS

FROM SIGN-UP TO REVIEW

01

Sign up

Get 3 tokens and verify your email

02

Add skills

Add them by hand or extract them from a CV or LinkedIn

03

Verify

An AI assessment sets your real level

04

Offer or request

Teachers publish offers, learners send requests

05

Negotiate

Agree on a date; urgent or weekend adds tokens

06

Exchange

Teacher accepts, the learner's tokens are reserved

07

Session

Online with a Zoom link, or in person

08

Complete

The teacher earns the tokens and both sides review

EXTERNAL SERVICES

PLUGGED INTO REAL TOOLS

Zoom

Online sessions get a meeting link automatically

WhatsApp · UltraMsg

Session reminders and exchange updates

Email · Brevo

Verification and token notifications

LinkedIn

Import skills straight from a LinkedIn profile

OpenAI

Powers every AI feature on the platform

A dark blue background featuring a faint, high-angle photograph of several people sitting around a large table, possibly in a meeting or classroom setting. The image is slightly blurred and serves as a backdrop for the text.

FEATURES

EVERYTHING AN EXCHANGE NEEDS

Token wallet

Balance, history, purchase and redeem

Skill offers

Verified teachers publish what they teach and its price

Learning requests

Learners ask for a skill, a mode and a date

Negotiation

Propose and accept dates in one thread

Urgency pricing

Earlier or weekend dates add extra tokens

Safe exchanges

Tokens held on accept, paid on finish, refunded on cancel

Sessions

Online or in person, one-to-one or group

Reviews

Ratings, reputation and a personal dashboard

AI FEATURES

AI THAT UNDERSTANDS SKILLS

Smart matching

Finds teachers by meaning, not exact skill names

CV extraction

Reads a CV and adds the skills it finds

Skill relationships

What to learn before, with and after a skill

AI assessment

Writes questions, grades answers, sets the level

Fairness check

Balances effort, level and token cost

Agreement generator

Writes the scope, sessions and cost for both sides

WHAT MAKES IT DIFFERENT

NOT ANOTHER TUTORING APP

- 01** Exchange is the product, not paid lessons
- 02** Tokens make indirect swaps possible
- 03** Pay extra tokens to learn sooner
- 04** Companies and individuals in one market
- 05** AI verifies skills and keeps every exchange fair
